

Levels of Engagement

Unpacking, understanding the key role of the "Engagement Continuum" in learning.

Cultures of Thinking

Most critical skillset required in a world rapidly innovating in unique possibilities.

Conceptual Drivers

Beyond the content, what are the universal connections enhancing understanding.

Curiosity by Questioning

Raising, creating, designing and using questions to explore these universal concepts.

Depth and Complexity

Depth beyond content alone, designing engagements that explore complexity.

Design of Learning Units

Purposeful design of interdisciplinary and transdisciplinary units of learning that are interconnected and driven by concepts.

Transformation

(Understanding the need and your vision)

bic TRIPLE-i-CONSULTING
Insights. Inspiration. Innovation.

Thought Leaders

(Engaging, Relevant, Inclusive)

Shift in Mindsets

*Educators – Open Minded to relearn
Students – Confidence to "explore".*

Agency as learners

Ownership of learning identifying next steps, having voice, providing choice.

Evidencing Learning

Relooking at the purpose of gathering evidence of learning as assessment capable practitioners and learners.

Learning Environments

Evidencing learning in the use and role of elements across our learning environments.

Role of Technology

Should permeate all subjects and teaching as a Language of Learning.

Use of Technology

Consideration of authentic purpose – not as a substitution or add on.

** Effective; Efficient; Engaging; Equitable*
